

A snack break for six

PLAY3 · Optional homework · Work alone; check your answers on page 2

1. Make a plan

You have **£18**. Keep at least **£2 for the bus**. Buy at least **6 bread rolls, 6 pieces of fruit and 2 litres of water**. Buy whole packs only. The shop has two of each product. Prices below are for one pack or bottle.

Product	Inside one pack / bottle	Price
Roll bag	4 bread rolls	£4
Banana bag	6 bananas	£3
Water bottle	1 litre of water	£2
Biscuit box	12 biscuits	£2

Which packs will you buy? _____

Food and water quantities: _____

Total cost: £_____ Money left: £_____

Can you add biscuits and still keep the bus money? Why / why not?

2. Choose the correct phrase

- How much / many rolls are in a bag?
- How much / many water do we need?
- Eight rolls for six people: a few / a little extra rolls.
- One litre when we need two: enough / not enough water.

3. Write a message (30-50 words)

Explain your basket, cost and money left. Use two quantity phrases.
Write in your notebook. Ask the group one question about an optional extra.

Check your snack plan

PLAY3 · Homework answers and model · Other valid explanations are welcome

1. Minimum basket

Two roll bags (£8), one banana bag (£3) and two water bottles (£4): **£15** total. You have **8 rolls, 6 bananas and 2 litres of water. £3 remains**, including the £2 bus money. Only £1 is available for extras. You cannot add the £2 biscuit box: that would leave only £1 for the bus.

2. Quantity phrases

a **many**: rolls are countable.

b **much**: water is uncountable.

c **a few**: rolls are countable; there are two extra.

d **not enough**: one litre is below the two-litre target.

3. Model message

Let's buy two bags of rolls, one bag of bananas and two bottles of water. We have enough food and a few extra rolls. It costs £15, so £3 is left. Shall we bring some biscuits from home?

Check your own message

Did you name the packs and quantities clearly? Is the cost correct? Is at least £2 left? Did you use two quantity phrases and ask a question? You may make a different suggestion for an extra, but it must follow the printed budget and stock rules.

One more challenge

If the total budget rises to £19, can you buy one biscuit box? **Yes**: the food, water and biscuits cost £17, leaving £2 for the bus. There are 12 biscuits, or two each for six people.
