

How Can Teachers Use Podcast Clips in English Lessons?

S06E17 | For teachers to adapt to their learners

Purpose

Choose a short, level-appropriate clip, set one clear listening purpose and follow it with a task that helps learners notice, discuss or reuse the language. The clip should support the lesson aim rather than simply fill time.

Try this in your next lesson

First listen: What is the main point?

Our suggested routine

- ☐ First listen: What is the main point?
- ☐ Second listen: What useful phrase or language feature do you notice?
- ☐ Third listen: Pause and repeat one short section.
- ☐ Discuss or personalise the idea.
- ☐ Finish by using one new expression in a sentence or mini-dialogue.

After the attempt

What worked? What needs another model or a smaller step? Note one change for next time.
